DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species A-L:

A method of forming a material over a substrate comprising utilization of at least one iteration of an ALD-type pulse sequence of Precursor1(P1)-Precursor2(P2)-Reactant(R), wherein:

- A) P1 comprises hafnium, P2 comprises aluminum, R comprises oxygen;
- B) P1 comprises hafnium, P2 comprises aluminum, R comprises nitrogen;
- C) P1 comprises hafnium, P2 comprises aluminum, R comprises silicon;
- D) P1 comprises aluminum, P2 comprises hafnium, R comprises oxygen;
- E) P1 comprises aluminum, P2 comprises hafnium, R comprises nitrogen;
- F) P1 comprises aluminum, P2 comprises hafnium, R comprises silicon;
- G) P1 comprises silicon, and P2 comprises germanium;
- H) P1 comprises germanium and P2 comprises silicon;
- I) P1 comprises titanium and P2 comprises aluminum;
- J) P1 comprises aluminum and P2 comprises titanium;
- K) P1 comprises aluminum, P2 comprises titanium, R comprises nitrogen;
- L) P1 is TiCl_4 , P2 is TMA and R comprises nitrogen

The species are independent or distinct because they are mutually exclusive.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Currently, only claim 20 is generic to all of these species.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim

as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
